Need help!! Call Now1-800-863-2274Product description You can also LikeRecently viewed ItemsThe SAM4s 650 is no longer done. It was one of the best-selling SAM4s cash registers. The good news is that it has been replaced by an even better cash register. SAM4s took the 650 and turned it into a SAM4s SPS-320, which is an updated version. The new cash register looks different, but you won't see a difference with regard to programming and reporting. With the SPS-320 SAM4s added an SD card port, more serial ports, changed the cabinet to black and a few other things. If you knew how to use the ER-650 you wouldn't have a learning curve with the SPS-320. The best replacement for the SAM4s ER-650 is the SAM4s SPS-320 Samsung ER-650 has eight lines of x 20 characters on the LCD screen on the programming screen simplifies programming menu items and system options. Hired to check sales and financial statements by looking at sales information on the screen. The Samsung ER-650 has 98 key spill keyboards resistant and easy to clean. The keys are fully programmable in order to match the menu and function of Alpha overlay programming. The two ports of RS-232C and IRC are a standard detailed sales log in memory for immediate viewing or printing on the screen. Additional credit card interface. The Samsung ER-650 is the best-selling cash register we offer. Programming this register is so easy some users never even open a manual. If you are looking for a cash register that can have an integrated credit card this one.
